CLASS REPRESENTATIVE
STUDENT COUNCIL APPLICATION
ERIK BAUER

1. Why do you want to be on Student Council?

I was a member of the Student Council during Freshmen year and enjoyed it very much. I enjoy a position of leadership and feel that I can contribute to the team..

2. What did you do for the school last year and this year?

Last year I made several public speaking appearances. They included a Deans' breakfast, a Principals' meeting in Arlington Heights, Mc Donald's University in Oak Brook, two presentations to the School Board and five Junior High Schools as part of honors English. As a member of the Student Council I also answered questions for a Superintendent's Advisory Board. This year I have participated in both Freshmen and Sophomore parent meetings. I also give many tours of the school to visiting guests. John Countney and I had the experience of running a class meeting.

Kate Piccirilli and I were elected leaders of the Student Council freshmen year and we were given the Leadership Award by Dr. Barnes at the end of Freshmen year. Kristen Ryan and Jayme Lee also received this award.

I try to set a good example for other students by helping Mr. C stack chairs and anything else I can do to help him and show my respect. I try to be supportive of the teachers, fulfill their expectations and encourage other students to do the same. I also try to help other students whenever possible.

The image of NLC is important to me. I try to set a good example even when I am away from school by using the Glasser theories in my everyday life.

Freshmen activities included the Year Book Committee, Sports Digest and the "Lock In" Committee.

3. What ideas do you have for the council and the school that you would like to try.

I would like to have a school constitution. The basic principles would include guidelines for elections and school representation groups.

I would like to help plan another "Lock In" even better than last year.

A class trip would be fun and students have shown an interest.

I hope to do more public speaking out of school and anything else to promote the NLC image.
